

PROFESSIONAL SUMMARY

Senior Software Developer with **4+ years of experience** building scalable web applications, reusable frontend systems, backend APIs, and AI-powered applications. **Proficient in JavaScript, TypeScript, Python, React, Next.js, Node.js, FastAPI, PostgreSQL, GraphQL, REST APIs, and Docker**, with hands-on experience in **AI/LLM integration, autonomous AI agents, and AI-assisted software development**. Experienced with **Cursor, GitHub Copilot, OpenAI Codex, and Anthropic Claude** for code generation, debugging, refactoring, testing, and development automation. Strong background in performance optimization, API integrations, scalable architecture, and CI/CD.

SKILLS

Programming Languages: JavaScript, TypeScript, Python, Bash
Frameworks & Libraries: React, Next.js, Redux, Express, Node.js, Tailwind CSS, Material UI, GraphQL, HTML5, CSS3
AI & Developer Tools: Cursor, GitHub Copilot, OpenAI Codex, Anthropic Claude, LLMs, AI Agents, AI-assisted Development
Tools & Technologies: Storybook, Chart.js, Hasura, Git, Husky, ESLint, Prettier, Docker, PostgreSQL, REST APIs

WORK EXPERIENCE

Freelance / Open-Source, Senior Software Developer05/2025 – Present

Property Finder

- Leveraged **Cursor, OpenAI Codex, and Anthropic Claude** for AI-assisted development, including code generation, refactoring, debugging, test creation, and development automation .
- Developed and enhanced **property-listing workflows** for a leading UAE real-estate platform.
- Used AI coding agents to accelerate **feature implementation, codebase exploration, documentation, and troubleshooting** while maintaining code quality through review and testing.

ImAvatar

- Developed **digital workflows for online puja bookings and seamless onboarding** in India's faith-tech ecosystem.
- Integrated REST APIs to deliver dynamic data, search results, filters, and real-time UI.

HashTrust Technologies, Software Developer04/2022 – 04/2025 | Gurugram

Fetch.ai

- Developed **high-quality, reusable frontend code** using Next.js and Nextra.
- Engineered modern, responsive **Fetch.ai** and **Fetch.ai** documentation websites with agile development and security for API.
- Developed **backend code with FastAPI and PostgreSQL**, improving documentation content and user engagement through actionable data insights.
- Implemented **CI/CD pipelines** for build, test, staging and reliable software deployments.
- Migrated **Fetch.ai documentation APIs from client-side to server-side**, improving speed by **30%**.
- Integrated **external systems within the uAgents framework** and created implementation examples and documentation.
- Developed the **Fetch.ai Integrations platform** using the GitHub API to dynamically retrieve and display integration data.
- Optimized **backend data handling and frontend responsiveness** while meeting tight project deadlines.

ATOMIX

- Built and maintained a **Storybook UI component library** for reusable, scalable frontend development.
- Developed a **dynamic form parser** that converts Google Sheets data into interactive UI forms.
- Created **custom components** to fetch and render parsed Google Sheets data dynamically.
- Engineered **multi-user form behaviours** for complex user interaction scenarios.
- Designed **GraphQL-integrated pages** for loan applications and borrower management.
- Led frontend **best practices, mentored junior developers, optimized performance** and collaborated with UX/UI teams.

ASI Create – Autonomous AI Chatbot

- Built a **scalable chatbot using autonomous AI agents** including MoA, MoM and MoE for intelligent task execution.
- Developed a **high-performance Next.js frontend** with optimized state management using TanStack Query.
- Integrated **ethers, CosmJS and PostgreSQL** for secure interactions and efficient data handling.
- Creating AI platforms and services that let anyone build and deploy **AI** services at scale.

INTERNSHIP

Claymango, Web Developer03/2021 – 08/2021 | New Delhi

- Developed and maintained web applications using **React.js** and related technologies.
- Collaborated with **designers, product managers and developers** to create high-quality products.

TECHNICAL WRITING

Performance-Based React Charts: [ApexCharts vs Recharts vs Highcharts](#)

EDUCATION

B.Tech (Hons.) Computer Science Engineering, JECRC, Jaipur	2018 – 2022 8.40/10.0
CBSE Class XII, Kendriya Vidyalaya No. 1, Jaipur	2017 84%
CBSE Class X, Kendriya Vidyalaya No. 1, Jaipur	2015 9.60
Languages, Communication skills: Hindi, English
